

HTSC Learn-to-Swim Program

Private Lessons (Adults & Children)

Beginning the week of June 16th, HTSC offers one-on-one swim instruction. You will be assigned an instructor prior to the initial lesson. Specific lesson times can be arranged to accommodate your schedule. However, we advise that you do not book lessons during the busy pool times.

Cancellation Policy: A 24 hour advance notice is required to cancel a private lesson. Less than 24 hour notice, customer is responsible for payment. **NO EXCEPTIONS AND NO REFUNDS!**

There are **no make-ups** for missing a scheduled lesson.

Group Lessons

The Hopewell Swim Center's, "Learn To Swim Program", is designed to promote aquatic safety through caring instruction in a small group environment. Group lessons cover basic water safety knowledge and stroke techniques in a continued progression of aquatic skills development. Participants will become better swimmers and have a better understanding of water safety.

NEW this YEAR! Our 6 thirty-minute group lesson package is now available in three options (refer to Step 3 of Swim Lesson Application for details). We strive to keep a student to instructor ratio of 5:1. Children are placed on the first day of class into groups based on ability levels.

- * 3 lessons per week for 2 weeks
- * 2 lessons per week for 3 weeks
- * 1 lesson per week for 6 weeks

The Learn To Swim program is for all levels of swimming ability:

- ★ **Pre-School**—the course is designed for the 3 to 5 year old's first water experience. Students learn elementary aquatic skills.
- ★ **Beginner**—(5 years and older) children learn basic skills and knowledge that help insure reasonable safety in and around the water.
- ★ **Advanced Beginner**—students will build on their basic aquatic skills.
- ★ **Intermediate** - students will add new strokes to their skill sets.
- ★ **Mommy & Me** - Introducing your child to the water.

SAFETY Tips

Send a message of safety

- At least one family member should know basic CPR.
- A home with a pool should have a fence around it that has a child-proof latch on the gate.

Always be cautious with children around water

- Drowning is one of the leading causes of death in children under the age of 5.
- Never leave a child unattended around water.

Focus on Safety

- Summertime means swim time, so stay safe and learn to swim the correct way at our beautiful facility.

Enjoy the Water

- Many children have a fear of the water, help them overcome this with swim instruction. Anyone can learn to swim with the right approach.

Talk to your family about water safety

- If you have a pool or plan to spend time near water, explain the importance of water safety to your family.

Year Round Safety

- Don't stop family safety instruction when the summer ends. Safety should be encouraged year round!
